

## Eligibility Criteria

---

In order to gain access to CISS services, a child must be attending a licensed child care program, and have demonstrated at least one of the following:

- a) a significant generalized cognitive delay
- b) a physical condition which carries substantial risk for prolonged delays in development
- c) a significant developmental delay in at least two of the following areas of development:
  - expressive speech/communication
  - receptive language
  - social/emotional
  - self-help
  - fine motor
  - gross motor
- d) an identifiable syndrome which is likely to have a significant detrimental effect on development and which carries a risk for later delays.

Eligibility of CISS services is dependent upon verification from objective psychological and/or medical findings. The allocation of all CISS services is based on availability of funds. All services are provided within the child care program setting.
