<b>PHILOSOPHY</b>	I believe each child is unique, and needs a safe, secure and stimulating environment in which to grow and thrive. This is largely why I believe so strongly in home daycare, which provides a strong, loving connection between the child and one primary caregiver. I believe in learning through play, and in exposing children to different environments and people through things like playgroups and field trips. I believe the caregiver's role is to guide the children, and to see where their imaginations take them.
